## THE NEWS.

The "situation" is getting to be interesting, not to say alarming. Our night dispatches bring the startling rumor that a fight was going on near Washington and that the rebels were approaching that city in large force. No dispatches can be had to-day from Washington, a fact whose pregnant significance needs no comment. We cannot believe that General Grant has remained quiet during the past four days, and shall expect to hear very important news as soon as we are in communication again with Washington.

We print an interesting, and to all appearance, patriotic order from Governor Seymour in relation to furnishing men under the hundred day call of the President. Gold declined to \$2.70, and wheat and flour are lower.

A VALUABLE VESSEL.—The New Ironsides, which arrived at Philadelphia on Friday last week, has been on duty in Charleston harbor for eighteen months, and during that time has participated in eighteen engagements, in all of which only one man was killed, Acting Ensign Charles W. Howard, and a sailor wounded. She was hit 221 times in one engagement. Only one or two shots penetrated her; one of these was at the bow, and the other at the stern, doing but very little damage. In one engagement, lasting four hours and ten minutes, they fired 723 shells, weighing 153 pounds each. On another occasion they fired 357 shells in three hours and ten minutes. The work of repairing her will begin at once.

TREATMENT OF FEDERAL PRISONERS IN GEORGIA.—There are some fifteen thousand federal soldiers confined in miserable quarters at Anderson, Sumpter county, Georgia. The Savannah News, a virulent rebel paper, states that our poor boys there are without coats, many of them naked, living on putrid meat and the heat is so great that they have to burrow in the ground. They are dying at the rate of three hundred per day. The editor of the News, an unprincipled man, is asking, "why in the name of God is not something done to alleviate the suffering of these men?" If they are our enemies, they are human beings. "The same can hardly be said of the barbarians who hold them."

Capt. J. A. WILSON, of the "gambut Kearsarge," who distinguished himself by destroying the rebel steamer Alabama, was born in Wilmington, N. C., in 1811. His father was from the old Plymouth stock of Winslows, his mother was a Southern woman. At the age of 14 years, through the influence of Daniel Webster, John entered the Navy as a midshipman. He frequently advised the Department to strengthen the blockading force off Cherbourg. He said he would do his best, and he certainly has done well.

THE CONSTITUTIONAL Convention of Louisiana on the 1st inst. adopted a provision establishing free public schools throughout the State. There are to be separate schools for the white and colored children. For the former, whites, and for the latter, colored persons alone are taxed. The Convention had previously rejected by a close vote propositions confining education to white children, and one recognizing no distinction of color.

THEODORE TILTON, editor of the N. Y. Independent, states in the last number of that paper, that a leading citizen of New York, "a noble and unspotted lawyer" had addressed him in these words: "The Fremont meeting, in my district are held in the same group-shed out of which, last summer, issued the rioters who set fire to my house; the audiences are the same persons, and the speakers are well known copperheads."

KEARSARGE, WIFE OF OUR victorious ship is named, is a mountain, 1.1 mile high, near the center of New Hampshire, one of the sentinel outposts of the White Hills, but not connected with them. The Unionists of the Granite State will henceforth regard this noble eminence with a prouder affection, since its name is indissolubly blended with one of the happiest exploits of our Navy.

THE ROUND TABLE.—The reader will find in this issue, the Prospectus of "The Round Table," a first class weekly journal recently established in New York. We have read it up to date with great pleasure, and can assure all whom it may concern that it is worthy of a place in every family in the land.

BRIGADIER GENERAL M. JEFF. THOMSON, the "Swamp Ranger" who once figured so extensively in the earthquake region of New Madrid, is among the rebel officers who have been placed under the rebel fire from Charleston. Jeff will make a capital target for his kind Charleston friends to shoot at.

GEN. GRANT, in a private letter to a friend, contradicts the story told by a correspondent of the Philadelphia Inquirer, that Gen. Meade wanted to fall back across the Rappahannock after the battle of the Wilderness.

A BALTIMORE steam fire engine has been sent to City Point for the purpose of forcing water from the James river to the hospital a distance of a mile and a half.

Prof. LOOMIS, of Yale college, says Sunday, June 26th, was the hottest day in New Haven for 86 years. The thermometer stood 102 in the shade.

## STATE NEWS.

The Plattville Witness states that at the recent New York meeting of the stockholders of the M. & P. du C. R. R., it was decided not to attempt the construction of a railroad from Monroe to Dubuque at present, and there is no immediate prospect of any other company taking hold of the work.—The Sheboygan Times reports copious rains in that county. The same paper says "the drying house of O. Mattoon's Chair Factory, at Sheboygan Falls, was burned, with 6,000 feet of lumber about ready for working up, on Monday last."

The Beaver Dam Citizen says the annual exhibition of the Wayland University was highly satisfactory, and the annual Festival a very pleasant gathering. The University lacks only \$500 of being out of debt, though a few years ago it owed \$13,000.—The Monroe Sentinel, after speaking of the refreshing effects of recent rains, says: "We regret to learn, on inquiry, that many fields of wheat will not pay for harvesting—what the drouth would have spared the chinch bugs have utterly destroyed."

The Delavan Republican says some 5,000, or 8,000 people celebrated the 4th there. There was bell-ringing, firing of guns, a procession, a feast, an address by W. C. Allen, a touching prayer by Rev. J. Colie, reading the declaration of independence, and a masterly oration by Mat. H. Carpenter.—The Watertown Republican says that through the liberality of the German Lutheran Church of that city, and the strenuous efforts of its agents in Germany, Watertown is to have a Seminary and College that will rank with the best educational institutions in the State. Suitable grounds have been purchased, and the Lutheran Church has raised \$2,000 by subscription, which, with \$10,000 from Germany, is a guaranty of a good commencement.

ENTERING SALT LAKE.—A correspondent of the Beese river Revue, travelling eastward, writes: "We were soon in sight of that beautiful sheet of water, Lake Utah, said to be forty miles in length and twenty broad. It is flanked on the east by the tall, snow-capped peaks of the Western range, and on its northern margin is a beautiful valley of the same name studded with farmhouses and neat villages. Provo city lay on the east, so shaded by the mountain that we could not see it. A little further on, in a deep gorge, we passed the Jordan's raging torrent, now swollen and muddy from the recent rains. Once out of these low hills we enter another plain and change horses at Porter Rockwell's. Only twenty-one miles of level road now lay before us—a goodly part of which is through rich agricultural lands, studded with neat farm-houses, embowered among fields of thrifty grain or the pleasant verdure of fruit trees, corn, potatoes, peas, &c. It is a sight the eye may well feast upon in perfect delight. We enter the city amid such surroundings, with the addition of stately trees lining the broad avenues, and even richer and more luxuriant orchards surrounding the almost inevitable adobe house. Here and there we come to private places of brick or stone, and finally enter the same streets, filled with vehicles of every description, and hosts of people hurrying to and fro; some points obstructed by huge piles of red sandstone opposite each structure going up, and at other points there may be a train of freight wagons or emigrants. At last we halt at the main hotel, and are soon lost among the great throng."

SOW BECKWEAT.—It is now time to prepare for sowing buckwheat. It will not be too late till the middle of July north of us, and in this latitude it may be sown some days later.

We urge all who have spare ground to put in this crop. Barley will come off soon enough, and some wheat stubble can be ploughed in time for it. The reasons for an unusual amount of buckwheat are: "1. Wheat will be short throughout the West and Northwest. We did think there would be two-thirds of an average crop; but the drouth in Minnesota, Wisconsin and some portions of Iowa and Illinois has been so severe and the ravages of the insect in other localities have been so great that if half the usual yield shall be obtained it will fully meet our present expectation. Therefore sow buckwheat."

"2. Wheat will probably be \$2.25 to \$2.50 per bushel by next December, and of course buckwheat will be largely profitable."

"3. The prospect now is, that there will not be an unusual yield of corn this season; indeed unless copious rains shall soon visit about the half of the West in which the drouth prevails, this crop will be short."

Sow buckwheat! It will enter largely into the home consumption of breadstuffs during the winter, provided a supply shall be furnished. Don't stand back appalled at \$2 or \$2.50 per bushel, or \$1 or \$1.50 per team and man, but breast the occasion heroically, and not only save your harvest, and give your growing crops good culture, but put in the buckwheat largely. Its harvest will come at a time when you will be somewhat relieved from pressing work.

SHEEP.—Mr. Henry Fox, a new settler in these parts from some part of Ohio, has got along with 1,100 head of sheep, about half blood merinos, he should judge, in tolerable condition considering the distance they have come—all the way from Ohio, by cars to Chicago, thence on foot, worried by shepherd dogs and boys. On behalf of the whole country we welcome such a man Fox and his sheep. These 7,000 or 8,000 worth of sheep are worth to the country at least three times what so much in money would come to, no matter how invested.—Grant Co. Herald.

PRENTICE THINKS Mr. Lincoln is a very lean man to have the disposal of so many fat offices.

W. M. ANDERSON, an Ohio delegate to the Chicago Convention, writes a letter in favor of a western confederacy.

## Good Story of Mozart.

The following amusing story is related of Mozart, the famous composer: Haydn one day challenged his pupil to compose a piece of music which he could not play at sight. Mozart accepted the bait, and a supper and champagne were to be the forfeit. Everything being arranged between the two composers, Mozart took his pen, and in five minutes dashed off a piece of music, and much to the surprise of Haydn, handed it to him, saying: "There is a piece of music which you cannot play, and I can. You are to give it the first trial."

Haydn smiled contemptuously at the visionary presumption of his pupil, and placing the notes before him struck the keys of the instrument. Surprised at its simplicity he dashed away until he reached the middle of the piece, when stopping all at once he exclaimed: "How is this, Mozart? How is this? Here my hands are stretched out to both ends of the piano, and yet there's the middle key to be touched. Nobody can play such music; not even the composer himself!"

Mozart smiled at the half-exasperated indignation of the great master, and taking the seat he had quitted, struck the instrument with such an air of assurance that Haydn began to think himself duped. Running along through the simple passages, he came to that part which his teacher pronounced impossible to be played. Mozart, as many are aware, was endowed with an extremely long nose, which, in modern dialect, "stuck out a foot." Reaching the difficult passage he stretched both hands to the extreme ends of the piano, and leaning forward, bobbed his nose against the middle key which "nobody could play!" Haydn burst into an immoderate fit of laughter; and after acknowledging the "corn," declared that nature had endowed Mozart with a capacity for music which he had never before discovered.

## Where did they Come From.

There is naturally much speculation to know from whence come so gradually and unexpectedly on the banks of the Potomac, fifteen or twenty thousand rebels in arms. The New York Commercial seeks to explain the matter by saying: "When General Hunter killed Jones at Piedmont, the latter's forces scattered and took refuge in the mountain regions around Charlottesville. As he proceeded still further down the valley, having formed a junction with Crook and Averill from West Virginia, he encountered another body of the enemy under McCausland, but they too were in flight between Lexington and Amherst Court House, and Hunter continued his march upon Lynchburg. Lee, now becoming alarmed for the safety of that important point, detached two entire divisions from Ewell's command, who arrived just in time to save the place."

Learning of this, Hunter at once decided upon a retrograde march. The forces scattered in his rear had, however, in the meantime rallied to oppose his retreat, and instead of returning up the valley he struck off in a Northwestern direction, and reached the Kanawha region in safety. This left the various rebel commands scattered between Staunton and Lynchburg, at liberty to return to the main army. But meanwhile, Wilson, with his body of six thousand cavalry, had likewise arrived in their rear, and was destroying the railroad from Burkesville to Staunton Bridge.

In view of this fact, a march Northward was manifestly decided upon, and the various commands were quickly massed and hurried up the valley. Their design was evidently to overwhelm the small forces under Sigel, Mulligan and Webber, guard Martinsburg, Harper's Ferry and the Baltimore and Ohio Railroad, capture the heavy supply trains sent forward to Hunter but turned back on the reception of the news of his retreat to Western Virginia, and hold the Shenandoah Valley long enough to harvest the rich cereals in its pastoral lowlands. Having accomplished this much, they would, if possible, cross the Potomac at Williamsport and Point of Rocks, and seize the supplies at Hagerstown and Frederick, and burn the great railroad bridge at Muncey Junction."

ICE A LIFE PROLONGER.—The problem of suspending life by freezing seems to be accumulating data. Perch and mullet have been brought from Lake Champlain frozen perfectly solid, and on being put into a tub of water, have come to life as lively as ever. A female convict in Sweden is in ice on experiment. A man was found lately in Switzerland, who gave signs of life after being frozen for nine months. The power of stopping while the world goes on may be the next wonder. Ice houses may soon be advertised with comfortable arrangements for skipping an epoch, or waiting for the next generation.

"HORSE" and "WIG WAG" are the appropriate names of two new brands of whiskey.

**MACHINE OIL** of the very best quality can be had at the sign of the Golden

Are our city readers, who are owners of cows, aware that they must be fed at home or starve? There is no feed on the range. A farmer friend said he observed a city cow trying to climb a maple tree for the purpose of getting the leaves. Oh, how some men in the city would rave and blather to be called so hard a name as a thief, and yet they positively know that their cows must steal their living or go without and starve. Reader, have you a cow? If you have, keep her at home and feed her; do not send her out to annoy and rob your neighbor of his time, patience, property, or even his own soul! You certainly endanger his immortal soul. Perhaps we have put this case rather strong. Let us see: Rockford contains between eight and ten thousand inhabitants, of whom, say four hundred keep a cow. Has the city a common? Not that we ever heard of. Now what moral or legal right have these owners of cows to turn them out to prey upon their neighbors? These cows are an intolerable nuisance to all the farmers in this vicinity. They open the gate, they break down any fence, for they must live, and hunger knows no law. These cows come home well filled, you? They drive a painful milk, and freeze your cow. But your cow broke my fence, cut the grass in my meadows, and hindered me three hours, in the best part of the day, from my labor, and also let in forty other cows, which fared equally well. This is a daily occurrence. We are not the only sufferers, (for it is a personal matter as well as a public affair.) Talk of depriving a poor man of his rights and the privilege of keeping a cow. Bosh! His cow has no more right to steal my fodder than he has to steal my purse. We wish to call the attention of the conscientious portion of our readers to the fact that the drought is very severe on the range as well as on the fields. We repeat there is no feed on the range. —Rockford Register.
